

Stainless Steel Step Pedal Waste Bin

This waste bin is constructed from stainless steel and features a step pedal for convenient, hands-free operation. It includes a removable inner bucket and a soft-close lid.

Product Overview

Professional Stainless Steel Waste Management

This stainless steel step pedal waste bin combines hygiene and modern aesthetics, making it suitable for professional environments including offices, kitchens, and restrooms. It features a convenient hands-free pedal mechanism and a soft-close lid system to ensure quiet, sanitary operation. With a removable inner bucket design, maintenance and waste disposal are efficient and effortless.
