

Stainless Steel Submersible Water Pump

This stainless steel submersible pump is designed for efficient water removal in various applications. Constructed with durable stainless steel, it offers corrosion resistance and longevity.

Product Overview

The QDX-SG series submersible pump featuring stainless steel body and compact design.

Professional Stainless Steel Submersible Pump

The QDX-SG series is a high-performance clean water submersible pump engineered for versatility and durability in various drainage and irrigation applications. Constructed with a 304 stainless steel body and spindle, it offers superior corrosion resistance for a long service life in demanding environments. Designed for efficiency, this unit features a compact, easy-to-install structure suitable for agriculture, residential water supply, and industrial drainage.

Technical Specifications

Insulation Grade

Class B

Protection Level

IP68

Operating Conditions

- Max media temperature: +60°C
- PH value: 6.5-8.5
- Max solid impurity size: 0.1% (up to 0.2mm particle size)
- Max diving depth: 5m

Key Materials

304 Stainless Steel, Copper winding, Engineering plastic nylon seat, Cast iron connection

Performance Data

Model Specifications

Model	Power (kW)	Outlet (In)	Weight (kg)
QDX1.5-16-0.37SG	0.37	1"	10
QDX3-20-0.55SG	0.55	1"	11
QDX6-18-0.75SG	0.75	1.5"	14
QDX/QX15-18-1.5SG	1.5	2"	23
QDX/QX50-7-1.5SG	1.5	4"	26
