

# Stainless Steel Tri-Proof Enclosed Light

This stainless steel tri-proof light is designed for demanding environments where protection against water, dust, and corrosion is essential. Constructed from high-grade stainless steel, it offers exceptional durability and resistance to harsh conditions.

## ADDITIONAL IMAGES

## Product Overview

### Industrial Tri-Proof Lighting Solution

This high-performance tri-proof LED light is engineered for demanding industrial and commercial environments. Featuring a robust stainless steel 304/316 body and a protective PC diffuser, it provides exceptional resistance against water, dust, and environmental corrosion. Its sealed, screw-fastened design ensures reliable illumination in areas such as food processing plants, chemical facilities, and outdoor zones.

## Technical Specifications

### Power Range

<b>20 W</b> Minimum Power	<b>60 W</b> Maximum Power
------------------------------	------------------------------

### IP Rating

IP65

### Rated Voltage

110V-230V

## Construction & Materials

**Body Material** Stainless Steel 304, Stainless Steel 316

**Diffuser Material** PC (Polycarbonate)

## Performance

**Luminous Flux Efficiency** 80lm-100lm / W

## Installation

**Installation Type** Screw fastening
