Product Overview

Robust Industrial Lighting Solution

This stainless steel tri-proof LED light is engineered for durability in challenging industrial environments. Featuring a corrosion-resistant 304/316 stainless steel housing and a sealed enclosure, it provides exceptional protection against dust, water, and impact. It is an ideal choice for food processing plants, parking garages, and other demanding settings requiring consistent, low-maintenance illumination.

Technical Specifications

Performance Metrics

60 W

Maximum Power

100 lm/w

Max Luminous Efficacy

230 V

Maximum Voltage

Ingress Protection

IP65

Construction & Design

Design Features

- Silicon gasket sealing
- Screw fastening installation
- Stainless steel fixing clips
- Integrated mounting hook
- Tempered glass diffuser

Body Material

Stainless Steel 304, Stainless Steel 316
