Product Overview

Industrial Tri-Proof Lighting Solution

This stainless steel tri-proof lighting fixture is engineered for demanding industrial environments where protection against moisture, dust, and corrosion is critical. Constructed with high-grade 304/316 stainless steel and a durable polycarbonate diffuser, it ensures longevity and reliable performance in harsh conditions. It is an ideal lighting choice for food processing facilities, parking garages, and marine applications requiring high hygiene and impact resistance.

Technical Specifications

Power Range

20 W Minimum Power	60 W Maximum Power
------------------------------	------------------------------

Luminous Efficacy	100 lm/w
Rated Voltage	110v-230v

Construction & Durability

Ingress Protection
IP65

Housing Material	Stainless Steel 304, Stainless Steel 316
Installation	Surface mounting with screw fastening
Diffuser Material	Polycarbonate
