Product Overview

Industrial Vertical Screw Conveyor

This stainless steel vertical screw conveyor is designed for the efficient handling and elevation of various powder and granular items. Engineered with a robust 304 stainless steel structure, it ensures hygienic and contamination-free transport suitable for food, pharmaceutical, and chemical environments. The system features a versatile square hopper design and is available in multiple capacities to suit diverse industrial production requirements.

Technical Specifications

Material	304 Stainless Steel
Conveying Angle	45 degrees
Electrical Requirements	380V, 50/60Hz, 3-Phase

Model Comparison

Model Specifications

Model	Hopper Capacity (L)	Height (m)	Feeding Diameter (mm)
WP-F180	180	2	114 / 102
WP-F350	350	2.4	159 / 141
WP-F700	700	2.6	168 / 159
WP-F1000	1000	2.8	220
