

# Stainless Steel Wire Rope 7x7 7x19

This stainless steel wire rope is available in 7x7 and 7x19 strand configurations. It is constructed from 304, 316, and 316L grades for optimal flexibility and durability.

## Product Overview

### High-Performance Stainless Steel Wire Rope

This high-tensile strength stainless steel wire rope is designed for demanding industrial and marine environments. Available in multiple configurations and material grades, it offers exceptional corrosion resistance and durability. Engineered for reliability in rigging, construction, and suspension systems, this product ensures long service life even under extreme conditions.

## Technical Specifications

### Material Grades

AISI 304 • AISI 316 • AISI 304L • AISI 316L • Non-magnetic

### Tensile Strength Options

- 1570 N/mm<sup>2</sup>
- 1670 N/mm<sup>2</sup>
- 1770 N/mm<sup>2</sup>

### Available Constructions

1x7, 1x19, 7x7, 7x19, 6x7+FC/IWS, 6x19+FC/IWRC/IWSC, 19x7, 6x37+FC/IWRC, 6x36WS+FC/IWRC

### Diameter Range

0.3mm - 32mm

### Surface Treatment

Bright, Annealed, Electro polished

## Compliance & Standards

### International Standards

AISI, ASTM, DIN, EN12385-4, BS, GB, JIS

## Logistics & Usage

### Packing Options

- Plywood reels
- Plastic spools

### H.S. Code

7312100000

### Applications

Rigging, Construction, Aircraft, Metallurgy, Hardware
