

Standard Computer Keyboard

This is a standard computer keyboard with function, alphanumeric, and navigation keys. It also includes a numeric keypad and dedicated keys for print screen, scroll lock, and pause/break.

Overview

Professional Standard Keyboard

This standard computer keyboard offers a reliable and efficient typing experience for professional office environments. Featuring a full-sized layout, it includes a complete alphanumeric section, a dedicated numeric keypad, and a comprehensive set of navigation and function keys. Its low-profile design and silver-and-black color scheme ensure it fits seamlessly into any modern workspace.
