

Standard Motorcycle with Air-Cooled Engine

This is a standard motorcycle equipped with a front fairing and a single headlight. The engine is a single-cylinder, air-cooled four-stroke engine, and the frame is a steel tubular frame.

Overview

Reliable Standard Motorcycle

This standard motorcycle is designed for versatile daily use, featuring a robust steel tubular frame and a dependable air-cooled four-stroke engine. It combines classic styling with practical components like a front disc brake and spoke wheels for reliable performance. Ideal for commuters, this model offers a balanced seating configuration and essential features for urban and suburban riding.
