

# Standard Port Brass Ball Valve

This standard port brass ball valve is designed for fluid control applications. It features durable brass construction for corrosion resistance, coupled with a red butterfly handle for easy manual operation and flow regulation.

## Product Overview

### Standard Port Brass Ball Valve

This standard port brass ball valve is engineered for efficient fluid control across plumbing, heating, and industrial applications. Constructed from durable brass, it offers excellent corrosion resistance and reliable long-term performance. The design features a red butterfly handle for intuitive manual operation and flow regulation, ensuring a secure shutoff with minimal pressure drop.

## Technical Specifications

### Handle Color

Red

### Material

Brass

### Port Design

Standard Port

### Handle Style

Butterfly Handle

### Connection Type

Compression Fittings

## Application

### Compatible Tubing

- Copper
- Brass
- Plastic

### Suitable Applications

Plumbing, Heating, Industrial Systems
