

Standard QWERTY Keyboard with Backlighting

This is a standard QWERTY keyboard that includes function keys and a numeric keypad. It also features blue backlighting and multimedia control keys.

Product Overview

Professional Standard Keyboard

This standard QWERTY keyboard is designed for professional environments, offering a full-size layout that includes a numeric keypad and dedicated navigation keys. It features integrated blue backlighting for enhanced visibility in low-light conditions and includes essential multimedia control keys. With a reliable design, it is an ideal solution for office productivity and general computing tasks.
