

Standard Street Motorcycle with Luggage Rack

This is a standard motorcycle designed for street use. It features a single-cylinder engine, a red and silver fuel tank, and a rear luggage rack.

Product Overview

Reliable Commuter Performance

This standard street motorcycle is designed for durability and everyday utility, featuring a classic design suitable for urban commuting. Equipped with a robust single-cylinder, air-cooled engine, it offers straightforward maintenance and consistent performance. The inclusion of a rear luggage rack enhances its versatility, making it an ideal choice for delivery tasks or daily transport requirements.
