

# Standard Street Motorcycle with Single-Cylinder Engine

This is a standard street motorcycle with a single-cylinder engine. It features a front disc brake, rear drum brake, and a conventional telescopic fork suspension.

## Overview

### Standard Street Motorcycle

This standard street motorcycle is engineered for reliable daily commuting and urban mobility. Featuring a robust single-cylinder engine and a classic steel tube frame, it offers a stable and upright riding position suitable for professional use. The combination of disc and drum braking systems ensures balanced stopping power in diverse traffic conditions.
