

Standing Electrical Fan with Telescopic Pole

This standing electrical fan provides cooling and air circulation. It features a circular safety grill, three blades, and a telescopic pole for adjustable height.

Product Overview

High-Efficiency Standing Fan

This standing electrical fan is designed for optimal indoor air circulation and cooling. Featuring a robust telescopic pole for adjustable height and a stable circular base, it offers both versatility and reliability. The unit includes a user-friendly control panel with two distinct settings, making it a practical solution for office or residential environments.
