

Standing Garment Steamer with Adjustable Height and Hanger

This garment steamer is designed to remove wrinkles from clothing efficiently. It features a standing design with a telescopic pole for adjustable height and a garment hanger for easy steaming.

Overview

Professional Garment Care Solution

The Standing Garment Steamer provides an efficient, convenient alternative to traditional ironing, designed to remove wrinkles from various fabric types with ease. Featuring a stable standing design with a telescopic pole, it allows for adjustable height to accommodate different garment lengths. The unit is built for practicality, including a dedicated hanger, flexible steam hose, and integrated wheels for seamless portability around the workspace or home.
