

Standing Pedestal Fan with Adjustable Height

This standing pedestal fan provides air circulation for indoor use. It features adjustable height and oscillation for customized comfort.

Product Overview

High-Performance Pedestal Fan

This standing pedestal fan is engineered for effective indoor air circulation and cooling in professional environments. Featuring an adjustable height design and a robust protective grill, it offers versatility and safety for various workspace layouts. The intuitive base-mounted controls allow for easy adjustment of fan speed and oscillation settings to suit specific climate needs.
