

Technical Specifications

Feeding Material Width

- 820
- 470
- 760

Roller Stations

16

Feeding Material Thickness

0.16-0.3 mm

Compatible Materials

Color steel plate, Galvanized sheet, Aluminum coils

Operating Performance

Key Performance Metrics

15 m/min

Max Working Speed

16 Mpa

Max Hydraulic Pressure

Interface Languages

English, Chinese, Spanish, Russian

Components and System

System Components

Component	Specifications
Main Motor Power	5.5 kW
Hydraulic Power	4 kW
Cutting Material	Cr12Mov Steel
Roller Material	No.45 Forged Steel

Compliance

CE • ISO 9001
