

Stationary Woodworking Bandsaw

This woodworking bandsaw is a stationary power tool designed for cutting wood. It features a vertical blade that runs continuously around two wheels, allowing for precise and intricate cuts.

Product Overview

Professional Stationary Bandsaw

The MJ347 is a high-performance stationary woodworking bandsaw engineered for precision, versatility, and durability. Designed for professional workshops, this tool excels at complex curve cutting, intricate shaping, and reliable resawing tasks. Its robust build and adjustable blade guiding system ensure consistent performance and stable operation for high-quality craftsmanship.

Technical Specifications

Model Number	MJ347
Design	Stationary

Features

Key Capabilities

- Precise curve cutting
- Efficient resawing
- Intricate wood shaping
- Adjustable blade guide system

Equipment Status

Industrial Grade • Stationary Power Tool
