

Steam Generator Iron with Base Station

This steam generator iron features a separate base station. It efficiently produces steam for effective garment care.

Product Overview

High-Efficiency Steam Generation

This steam generator iron offers a professional-grade solution for efficient fabric care. Equipped with a dedicated base station, it ensures consistent steam production for smoother ironing results. Designed with a user-friendly control panel and an ergonomic cork-textured handle, it provides comfort and precision for demanding environments.

Technical Specifications

Control Interface

- Integrated power switch
- Visual indicator lights
- Steam generation control panel

Design Features
