Product Overview

Innovative Cleaning Solution

This high-performance steam mop provides a comprehensive home care solution by combining cleaning, sterilization, mite removal, and polishing in a single device. Utilizing advanced dual rotary plates and 100°C atomized steam, it efficiently cleans and sanitizes hard floors while accelerating evaporation for a traceless finish. The system is designed for safety and ease of use, featuring thermosensitive anti-burning protection and integrated LED lighting to ensure thorough cleaning in dark corners.

Performance Metrics

Cleaning Efficiency

30 sqm/min

Cleaning Speed

210 RPM

Rotary Plate Speed

160 sqm

Coverage per Tank

Technical Specifications

Power Requirements	220V-240V, 50/60Hz, 1100-1300W
Water Tank Capacity	410 ml
Steam Ready Time	45 seconds
Continuous Steam Duration	20 mins
Steam Output Rate	18±6g/min
Exposed Cable Length	5 M

Key Features

Safety Systems

- Thermosensitive anti-burning protection
- Dry burning prevention
- Auto power-off protection
