

Steam Multi-Surface Sanitizing Machine

This steam multi-function machine is designed for various cleaning tasks. It utilizes steam to effectively sanitize and clean surfaces without the need for harsh chemicals.

Product Overview

Versatile Steam Cleaning Solution

This multi-surface steam sanitizing machine offers a comprehensive cleaning and sterilization solution for various household needs. Featuring a 30-second rapid heat-up time, it produces 100°C high-pressure steam to effectively sanitize floors, furniture, and kitchen surfaces while eliminating odors. The ergonomic design includes an adjustable aluminum alloy stem and a comfortable handle, making it a convenient tool for maintaining a clean and humidified indoor environment.

Technical Specifications

Tank Capacity	0.4 L
Heat-up Time	30 seconds
Steam Temperature	100 °C
Power Levels	7

Features

Design Features

- Digital LCD Screen
- Transparent Water Tank
- Ergonomic Handle
