

Steam Station Iron with Separate Base

This steam station iron features a separate base unit for steam generation and iron storage. The iron has adjustable settings and indicator lights for indicating operational status.

Product Overview

Professional Steam Station Iron

This steam station iron is engineered for high-performance garment care, featuring a separate base unit for continuous, high-pressure steam generation. Designed with a generous 1.5L water capacity, it allows for longer ironing sessions without frequent refills. The adjustable settings and intuitive indicator lights provide precise control, making it an efficient solution for commercial or heavy-duty household use.
