

Steel Blade Hedge Shear with Telescoping Handles

This hedge shear features durable steel blades for clean and precise cuts. Telescoping handles provide extended reach and leverage, enhancing user comfort and efficiency.

Product Overview

Professional Hedge Maintenance

These professional hedge shears are engineered with durable steel blades designed for clean and precise cuts. The integrated telescoping handles offer extended reach and improved leverage, significantly enhancing user efficiency. Ergonomic grips are included to minimize hand fatigue, making this tool ideal for the long-term shaping and maintenance of hedges, shrubs, and bushes.
