

Steel Blade Shovel

This shovel is designed for digging, lifting, and moving materials like soil and gravel. It features a high-strength steel blade and a comfortable grip handle.

Product Overview

Built for Heavy-Duty Performance

This robust and durable shovel is engineered for high-performance digging, lifting, and material movement. Its high-strength steel blade ensures efficient ground penetration, making it an ideal tool for landscaping, construction, and intensive gardening tasks. Designed with user comfort in mind, the handle provides a secure grip to minimize fatigue during long periods of operation.

Technical Specifications

Handle Design

- Comfortable grip handle
- Enhanced control
- Reduced hand fatigue design

Blade Material	High-strength steel
Recommended Uses	Gardening, Landscaping, Construction, Material Handling, Snow Removal

Key Performance Metrics

Durability Class

Heavy-Duty • Industrial Grade
