

# Steel Eye Hook with Safety Latch

This drop forged eye hook is crafted from high-strength steel and features a spring-loaded safety latch for secure connections. Designed for lifting and rigging applications, this hook provides reliable performance and durability.

## ADDITIONAL IMAGES

## Product Overview

### Professional Grade Lifting Solution

This drop-forged eye hook is engineered for high-strength lifting and rigging applications. It features a spring-loaded safety latch to ensure secure connections for chains, ropes, and other lifting devices. Built with a galvanized, corrosion-resistant finish, this hook provides durable and reliable performance in demanding industrial and construction environments.

## Technical Specifications

### Safety Features

- Spring-loaded safety latch
- Corrosion-resistant finish

Material	Galvanized Steel
Manufacturing Process	Drop forged

## Compliance & Standards

Certifications	CE, TÜV Rheinland, Geprüfte Sicherheit
----------------	--

## Usage

### Suitable Applications

Lifting • Rigging • Industrial • Construction
