

Steel Keel Pincers

These steel keel pincers are designed for precise cutting and trimming. They feature durable construction and ergonomic handles for comfortable use.

Product Overview

Professional Steel Keel Pincers

These steel keel pincers are specifically engineered for the reliable fixation and secure connection of light steel keels. Designed for both safety and convenience, the tool features an ergonomic, soft-grip handle that ensures comfort during prolonged professional use. Its durable construction is built to withstand industrial applications, making it an essential addition to construction and metalworking toolkits.
