

Steel Long Tape Measure with 4X Rewind

This steel long tape measure features a durable steel blade for accurate measurements. Its 4X gear ratio allows for quick and efficient rewinding.

Product Overview

Professional Series J18 Measuring Tape

The Series J18 steel long tape measure is designed for professionals requiring both precision and efficiency on the job site. It features a high-durability steel blade and an innovative 4X gear ratio system, allowing for significantly faster rewinding compared to standard models. Built for comfort and longevity, the tool incorporates an ergonomic, metal-reinforced soft-grip handle and impact-resistant rubber buffers to withstand demanding work environments.

Technical Specifications

Rewind Speed Ratio

4 X
Gear Ratio

Key Materials

Steel Blade, Reinforced Metal, Soft Elastic Grip, Impact-Resistant Rubber

Design Features

Handle Construction

- Soft elastic material for comfortable grip
- Metal-reinforced structure for added strength

Impact Protection

Yes
