

Steel Pipe Fitting Kit with Flange, Elbow, and Reducer

This kit contains various steel pipe fittings for creating connections. It includes flanges, elbows, and reducers suitable for use in pipelines and industrial settings.

Product Overview

Industrial Steel Pipe Fitting Solution

This premium pipe fitting kit provides high-strength components essential for high-pressure industrial applications. Featuring a combination of A335 Grade P5 and A182 F5 materials, these components are engineered for durability and reliability in demanding pipeline and chemical plant environments. The set includes seamless piping, welding neck flanges, slip-on flanges, and long-radius elbows designed to meet rigorous performance standards.

Technical Details

Nominal Diameter (DN)	10 inch
Pressure Rating	PN 150
Material Specifications	A335 GR.P5, A182 F5, A234 WP5
Schedule Rating	XS / XS-80

Component Inventory

Kit Contents

- Seamless Pipe (DN10)
- Welding Neck Flange (DN10, PN150RF)
- Slip-On Flange (DN10, PN150RF)
- 45-Degree Elbow (Long Radius)
- 90-Degree Elbow (Long Radius, R=1.5DN)
