

# Steel Pry Bar

This heavy-duty pry bar is designed for prying, lifting, and demolition. It is constructed from hardened steel for strength and includes a chisel end and nail puller.

## Overview

### Heavy-Duty Steel Pry Bar

This heavy-duty crowbar is engineered for demanding prying, lifting, and demolition tasks. Constructed from hardened steel, it offers exceptional durability and resistance to bending or breaking under pressure. It is an essential tool for construction, renovation, and demolition projects.

## Technical Specifications

### Key Features

- Chisel end for prying
- Integrated nail puller

Material	Hardened Steel
----------	----------------

## Applications

Suitable Applications	Construction, Renovation, Demolition
