

Steel Shovel Head Replacement

This shovel head is mainly used in agriculture, industry, and construction. Constructed from durable steel, the blade is engineered for efficient digging and material handling.

Product Overview

Professional Grade Replacement Shovel Head

This high-quality replacement shovel head is engineered for durability and heavy-duty performance in gardening and landscaping tasks. Constructed from industrial-grade rail steel, it offers exceptional strength for efficient digging and material handling. Designed as a direct replacement for worn or damaged equipment, this component ensures longevity and reliable operation.

Technical Specifications

Available Surface Treatments

- Painted with polish
- Black & silver painted
- Powder coated

Item Number	S503
Material	Rail steel
Dimensions (W x H x L)	220 x 290 x 420 mm

Logistics

Quantity per 20' FCL	13200 pieces
