

Steel Shovel with D-Handle

This steel shovel features a D-handle, providing a comfortable and secure grip. Its durable steel blade is effective for gardening, landscaping, and various digging applications.

Product Overview

Professional Grade D-Handle Steel Shovel

This robust steel shovel is engineered for efficiency in gardening, landscaping, and general digging tasks. Featuring a high-quality hardwood handle and a durable powder-painted steel head, it provides a balance of strength and maneuverability. The ergonomic D-grip design ensures comfortable operation during prolonged use.
