Product Overview

Professional Performance and Ergonomics

These professional-grade side cutting pliers are engineered for precision and durability in heavy-duty applications. Constructed from high-quality 50CrV steel with a hardened edge reaching HRC 55-62, they provide exceptional cutting power for wire, cable, and small metal components. The design incorporates a comfortable three-colour TPR/PVC handle to minimize hand fatigue during extended professional use.

Technical Specifications

Available Sizes

- 6 inch (160mm)
- 7 inch (180mm)

Material Composition: 50CrV Steel

Hardness (HRC): 62

Compliance Standards: DIN 5749

Design Features

Handle Construction: TPR/PVC Three-Colour Ergonomic Grip

Logistics and Packaging

Packaging Format: Half Double Blister

Carton Quantity: 6/60
