

Steel Tray Wheelbarrow

This wheelbarrow is designed for construction, gardening, and landscaping. It features a robust steel tray for carrying materials and a durable pneumatic tire.

Overview

Heavy-Duty Utility Solution

This heavy-duty wheelbarrow is engineered for demanding construction, landscaping, and gardening tasks. Featuring a robust steel tray, it is perfectly suited for transporting heavy materials such as soil, gravel, and concrete. The design prioritizes durability and maneuverability, making it an essential tool for both professional job sites and residential projects.

Construction & Design

Frame Material	High-strength steel
Tray Material	Steel
Handle Design	Ergonomic grip

Performance

Key Features

- Robust steel tray for heavy loads
- Pneumatic tire for terrain versatility
- High-strength steel frame construction
- Ergonomic handles for improved control

Tire Type	Pneumatic
Primary Applications	Construction, Gardening, Landscaping, Professional Use, DIY
