

Steel Tray Wheelbarrow with Pneumatic Tire

This wheelbarrow is designed for transporting materials on construction sites, in gardens, and for landscaping. It features a durable steel tray and a pneumatic tire for easy maneuverability.

Overview

Professional Grade Utility

This heavy-duty steel tray wheelbarrow is engineered for the rigors of construction, landscaping, and gardening. It features a robust steel frame and a durable tray capable of transporting heavy materials like concrete, gravel, and soil. Designed for performance, the pneumatic tire ensures smooth maneuverability across uneven terrains while the ergonomic handles provide superior control for the operator.

Key Features

Primary Highlights

Heavy-duty construction, Steel tray, Pneumatic tire, Ergonomic design

Technical Specifications

Performance Metrics

1 Pneumatic Tire

Maneuverability

Material Composition

- Steel tray body
- Reinforced steel frame

Applications

Common Job Sites

- Construction sites
- Landscaping projects
- Professional gardening
