

# Steel Tube Handle Claw Hammer

This claw hammer features a steel tubular handle for enhanced strength and reduced vibration. The hammerhead is forged from high-quality steel, providing excellent impact resistance.

## Product Overview

### Professional Grade Claw Hammer

This durable claw hammer is engineered with a steel tubular handle, designed to provide enhanced strength while effectively reducing vibration during use. The hammerhead is forged from high-quality steel, ensuring excellent impact resistance and long-lasting performance for demanding work environments. Featuring an efficient claw design for easy nail removal, it is an ideal tool for construction, woodworking, and general repair tasks.

## Technical Specifications

### Recommended Applications

- Construction
- Woodworking
- General Repair

Handle Material	Steel Tubular
Head Material	Forged Steel
Key Features	Vibration Reduction, Impact Resistant, High Strength
Model Identifier	JL0211
