

Steel Wheel for Construction Machinery

This steel wheel is designed for off-road and industrial applications, including construction machinery. It features a robust construction for durability and reliable performance in demanding environments.

Product Overview

Heavy-Duty Construction Wheel

This robust steel wheel is engineered specifically for demanding construction machinery and off-road applications. Built for high load capacity and exceptional wear resistance, it provides long-term reliability in harsh operating environments. Featuring a durable black finish and a multi-bolt mounting configuration, it ensures secure attachment and superior structural integrity.

Technical Specifications

Construction Details

- Robust heavy-duty steel
- Wear-resistant finish
- Black protective coating
- Multi-bolt hole mounting pattern

Wheel Style

APW Wheel • Heavy-Duty

Primary Applications

Construction Machinery, Off-Road, Truck, Industrial, Agricultural
