Product Overview

Industrial Steel Wheel Rim

This heavy-duty steel wheel rim is engineered for demanding truck and trailer applications, providing high durability and reliable performance in industrial environments. Featuring a robust multi-hole pattern, it offers versatile mounting options to suit various vehicle hubs. The inclusion of a separate retaining ring ensures secure tire seating, while the specialized orange protective finish provides excellent corrosion resistance.

Technical Specifications

Material	Heavy-duty steel
Finish	Orange anti-corrosion paint
Mounting Configuration	Multi-hole bolt pattern
Component Design	Detachable side ring, Retaining ring, Central mounting disc

Application Compatibility

Primary Applications

- Heavy-duty trucks
- Industrial trailers
- Automotive transport
