

Steel Wire Rope Cable

This steel wire rope cable is available in galvanized, ungalvanized, and stainless steel. It is suitable for heavy-duty applications.

Product Overview

Professional Grade Steel Wire Rope

This high-strength steel wire rope is engineered for durability and reliability in heavy-duty industrial applications. Available in various constructions and diameters, it offers flexible performance tailored to specific load requirements. The cable is manufactured to meet rigorous international standards for tensile strength and structural integrity.

Technical Specifications

Construction and Diameter Range

Construction	Diameter Range
6x7+FC	1.5-12mm
6x7+IWSC	1.5-12mm
6x12+7FC	3-16mm
6x19+FC; 7x19	3.0-30mm
6x19+IWRC	3.0-30mm
6x24+7FC	6.0-30mm
6x37+FC; 6x37+IWRC	6.0-30mm
8x19S+FC, 8x19S+IWRC	6-24mm
18xFC, 19x7	3-28mm
6x25Fi, 6x29Fi, 6x31WS, 6x36WS	6-42mm

Tensile Strength

1570 N/mm²
Minimum Strength

2160 N/mm²
Maximum Strength

Material and Finishing

Primary Material

Stainless Steel

Available Surface Treatments

Electric galvanized, Hot dipped galvanized, Ungalvanized, Plastic coated
