Product Overview

High-Performance Steel Wire Rope for Heavy Lifting

This premium steel wire rope is engineered for high-demand industrial lifting applications, offering superior breaking strength and exceptional fatigue resistance. With an accurate wire pitch and compact structure, it ensures reliable performance and longevity in demanding environments. Each rope is manufactured under strict quality control standards to provide consistent results and reduce downtime in mission-critical operations.

Technical Specifications

Diameter Tolerance	±1%
Available Finishes & Variants	Galvanized, Bright, Lubricated, Plastic Insert, High Tensile, Coated, Rotation Resistant, Non-Rotation

Applications

Supported Crane Systems

- Tower Cranes
- Container Cranes
- Mobile Lattice Boom Cranes
- Ship Unloader Cranes
- Quay Cranes
- Offshore Pedestal Cranes
- Overhead Cranes

Core Lifting Functions

- Trolley Hoisting
- Boom Hoisting
- Main Hoisting
- Racking
- Grab Closing
