

Steel Wire

Steel wire designed for electrical applications. It is used for conducting electricity in various settings.

Product Overview

High-Quality Steel Wire

This premium steel wire is engineered for durability and consistent performance in demanding industrial applications. Designed to meet strict international standards, it offers exceptional tensile strength and resistance to mechanical wear. Its versatile characteristics make it an ideal choice for manufacturing, construction, and reinforcement projects requiring reliable structural integrity.

Technical Specifications

Surface Finish

Galvanized • Bright Drawn • Black Annealed

Material Composition

Carbon Steel

Available Grades

Q195, Q235, SAE1006, SAE1008

Performance Metrics

Key Performance Indicators

400 MPa

Tensile Strength

0.5 mm

Diameter Tolerance

Compliance & Quality

Quality Standards

ISO 9001, ASTM, DIN
