Product Overview

Versatile Steel Wool Abrasives

These professional-grade steel wool pads are engineered from fine steel strands to provide superior abrasion for cleaning, polishing, and surface preparation. They are highly effective at removing rust, old paint, and stubborn grime from a variety of surfaces, including metal and wood. Designed for durability and performance, these pads are an essential tool for woodworking professionals and maintenance tasks.

Technical Specifications

Recommended Uses

- Metal surface polishing
- Woodworking and surface finishing
- Rust and paint removal
- Household cleaning

Material Composition

Fine steel wire strands

Certifications and Compliance

Industry Certifications

ISO, Sedex, BSCI, MSDS, QMS

Packaging

Unit Quantity

12-pack • 8-pack
