

Steering Rack Assembly for 2WD LHD Vehicles

This steering rack assembly is designed for 2WD vehicles with left-hand drive. It converts rotational motion from the steering wheel into linear motion to turn the wheels.

Product Overview

High-Performance Steering Rack Assembly

This premium steering rack assembly is engineered specifically for 2WD LHD vehicles, ensuring precise handling and responsive control. The complete unit features a robust rack and pinion mechanism integrated with power-assisted hydraulic lines for smooth, effortless operation. Designed for durability and longevity, the assembly includes protective rubber boots to shield vital internal components from debris and harsh road conditions.

Technical Specifications

Included Components

- Rack and pinion mechanism
- Tie rod ends
- Protective rubber boots
- Hydraulic fluid lines

Material Type

Durable Metal Alloy • Corrosion Resistant Finish

Drive Compatibility

2WD (Two-Wheel Drive)

Steering Configuration

Left-Hand Drive (LHD)

Steering Mechanism

Hydraulic Power Steering
