

Steering Rack for VW Polo (2012-2016)

This steering rack is designed for VW Polo vehicles from 2012-2016. It converts steering wheel motion into linear motion for turning the wheels.

Product Overview

High-Performance Steering Rack

This high-quality steering rack is specifically engineered for VW Polo vehicles (2012-2016) to provide precise, responsive handling. Designed to meet or exceed original equipment standards, the unit converts steering wheel rotation into reliable linear motion. It features durable construction and includes protective boots to prevent internal contamination, ensuring a long and reliable service life.
