

Steering Wheel Spinner Knob

This steering wheel spinner knob enhances control and maneuverability for drivers, especially during tight turns and parking. Constructed from durable, high-quality materials, it ensures long-lasting performance and reliability.

Product Overview

Enhanced Maneuverability Solution

This steering wheel spinner knob is designed to provide professional drivers with superior control, making tight turns and precision parking easier. Featuring an ergonomic construction, it reduces driver fatigue and promotes a more comfortable handling experience. The universal clamp-on mechanism ensures seamless compatibility with a wide range of standard steering wheels.

Technical Details

Model Identification	YJ1062
Installation	Clamp-on

Compatibility

Suitable Vehicles

- Trucks
- Cars
- General vehicles requiring steering assistance

Key Features

Core Benefits	Ergonomic Design, Enhanced Control, Reduced Fatigue, Universal Fit
