

# Step-Through City Bicycle with Fenders and Rack

This step-through bicycle is designed for urban or recreational use. It features front and rear fenders, a rear rack, and a comfortable saddle.

## Overview

### Urban Mobility Solution

This step-through city bicycle is engineered for comfortable and efficient urban commuting. Designed with practicality in mind, it features a low-frame geometry for easy mounting and dismounting, making it ideal for daily city travel. The inclusion of essential accessories like fenders and a rear rack ensures riders are prepared for various weather conditions and cargo transport needs.
