

Step-Through Electric Bicycle with Mudguards

This red electric bicycle blends classic design with modern technology. The step-through frame allows easy access, while the electric motor provides assistance for city travel and relaxed outings.

Overview

Reliable Urban Mobility

This step-through electric bicycle is designed for comfortable and efficient urban commuting. Featuring a durable steel frame and a high-speed brushless motor, it offers a practical solution for daily transport. The included mudguards and chain guard ensure a clean ride, while the Shimano 6-speed derailleurs provides versatility for varying terrain.
