

Step-Through Electric Bicycle with Rear Rack Battery

This electric bicycle has a step-through frame for easy access. It features a rear rack-mounted battery, front and rear fenders, a headlight, and a multi-speed drivetrain.

Overview

Efficiency Meets Accessibility

This step-through electric bicycle is engineered for convenience and ease of use, featuring a low-frame design that simplifies mounting and dismounting for riders of all abilities. Equipped with a rear-rack mounted battery, it provides reliable power assistance for daily commutes or leisurely rides. The build includes essential safety and comfort features like front and rear fenders, a high-visibility headlight, and a comfortable saddle, ensuring a practical and enjoyable riding experience.
