

Step-Through Electric Bicycle with Rear Storage

This electric bicycle features a step-through frame for easy access and a rear storage box for convenience. Its design is suitable for urban commuting and short trips.

Overview

Urban Mobility Solution

This step-through electric bicycle is designed for convenient urban commuting and short-distance travel. Its accessible frame geometry allows for easy mounting and dismounting, making it ideal for daily errands. Equipped with a reliable electric motor and battery system, this bike combines traditional cycling components with modern electric assistance and practical rear storage.
