

Step-Through Electric Bike with Street Legal Features

This electric bike features a step-through frame for easy mounting and dismounting. It includes mirrors, indicators, and a license plate holder for street legal use.

Overview

Designed for Urban Mobility

This step-through electric bike is engineered for practical, everyday urban commuting. Featuring a robust frame design and essential safety components like integrated mirrors, indicators, and a license plate holder, it is built to meet street-legal requirements. Its accessible frame geometry ensures ease of use for riders of varying heights, making it an ideal solution for professional fleet applications or personal city travel.
