

# Step-Through Electric City Bicycle with Basket

This electric bicycle is designed with a step-through frame, making it easy to mount and dismount. It includes a front basket and rear seat with a backrest for added convenience.

## Overview

### Urban Commuter Design

This step-through electric city bicycle is engineered for convenience and comfort in urban environments. Featuring a practical front basket and a rear passenger seat with a backrest, it offers versatile utility for daily errands or short commutes. The frame-mounted battery design ensures a balanced ride, while the accessible step-through geometry makes mounting and dismounting effortless for riders of all types.
